1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In Claim 5, line 5, "removedat" has been changed to "removed at" to insert a space between the words as in the original claim.

2. The replacement drawing sheets filed 11/10/10 are acceptable and have been entered into the application.

3. The following is an examiner's statement of reasons for allowance: the Applicant's arguments filed 11/10/10 are persuasive. The closest prior art Dunbar et al teaches the formation of a polyimide film wherein the ends of the film are fixed and during a portion of the imidization curing process, the clips holding the film are removed to allow the film to be loosened however Dunbar et al does not teach or render obvious that the ends of the polyimide gel film are fixed in a loosened state such that the width between the fixed ends is less than the width of the film as instantly claimed. Further, the terminal disclaimer filed 11/10/10 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of any patent granted on application 11/663,622 has been reviewed and is accepted. The terminal disclaimer has been recorded and the double patenting rejection has been withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
